Allowable Subject Matter

1. Claim 1 is allowed.

2. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a track having an endless longitudinal body with an inner surface displaying a series of longitudinally spaced drive lugs, and an outer surface displaying a series of longitudinally spaced profiles that extending transversely from one outer edge of the body to an opposite outer edge of the body, each profile being formed as a continuous mass of flexible rubber material having a height decreasing in value from the center of the mass to the outer edges thereof, the body being formed of flexible rubber and being free of conventional transversely extending reinforcing rods to reduce the transverse rigidity of the body, thus allowing the profiles to curvingly flex when engaging a rut, each profile being formed of three levels of profile sections that include a central section, a pair of opposite intermediate sections and a pair of opposite edge section, and wherein the central section displays a hexagonal-shaped mass having a greater thickness than that of the intermediate and edge sections..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
